Policy talk

Bernadett Prefi, Policy Assistant to the Commissioner (Cabinet of Commissioner Navracsics) at European Commission, DG EAC

Biography will be added soon.

Andy Demeulenaere is the coordinator of Mediawijs, the Flemish Knowledge Centre for Digital and Media Literacy. He has coordinated the vision and educational policy of the largest youth movement in Belgium and the main Flemish organisation on digital youth work and presided over the board of the Flemish umbrella organisation for youth work. As a long time professional and volunteer youth worker empowering people is at the core of his work, as an experienced organisation manager achieving societal impact with reasonable resources is an essential focus, as a historian critical thinking and connecting the current trend to historical evolutions is in his nature.

Liz Waters has been actively involved in community education for over twenty-five years providing community-based adult education, educational childcare and enterprise to the community of Tallaght West. Liz managed An Cosán's community education centre, and was appointed CEO in 2001. Liz's particular area of expertise is in leadership studies, community development and community counselling. Liz's passion for education sparked an interest in exploring how new digital technology could

bring An Cosán's social innovation in education to everyone who needs it in Ireland. Under her leadership, An Cosán embarked on a path to bring its curricula online – from basic education to degree level – to share the knowledge created in Tallaght West with similar communities across Ireland. In 2015, Liz stepped aside from her role as CEO to develop An Cosán's Virtual Community College after winning a Social Entrepreneurs Ireland Impact Award in 2014. Having proved the success of the model, the Board of An Cosán invited her to resume her position as CEO in September 2017. Liz has embedded technology at the heart of all An Cosán's education, it might be a STEM programme for pre-schoolers or a programme in Digital Skills and Business Administration for the 21st Century for women who parent alone. Liz is ex-president of AONTAS and has just stepped down from the board of the European Association for the Education of Adults (EAEA) in 2019.

Luisa Crisigiovanni is Born in the Alps but grown up in Milan. Since July 2014 Secretary General of Altroconsumo, the most representative independent consumers' association in Italy with more than 359.000 members in 2018. BEUC – The European Consumers organization - executive board member and Treasurer since 2015 and AC representative at the National consumer council of the Ministry of Development. Member of Public affairs and communication professionals' network FERPI since 2000. She deals with consumers' law for more than 25 years and advocates for consumers

rights at national and international level. After a degree in Political Sciences about European and International law in 1992 at Milan University, she specialized in Communication and EU Fundraising at SDA Bocconi. In 2019 she achieved a Master in Eu Project funding by Sole24ore Business School to keep on working as a fundraiser manager for Euroconsumers, network of consumers organizations from Italy, Spain, Belgium, Portugal and Brazil, whose aims is consumers empowerment.

Workshop 2: Ethical implications of data management

Brendan Tierney is a lecturer with Technological University Dublin (TU Dublin) and focuses on Data Management and Machine Learning. He is very active in end-user communities being director of the Data Management Ireland (DAMA Ireland) and with various Oracle User Groups around the world. He is on the board of several user groups including Oracle User Group Ireland, UKOUG, Analytics and Data Summit Europe and USA. He is a regular presenter at user group events around

the world. Brendan has published four books with McGraw-Hill and MIT Press on Machine Learning and Data Science. Some of these have been translated into multiple languages. These books include Essentials of Data Science with MIT Press and Predictive Analytics Using Oracle Data Miner, Oracle R Enterprise: Harnessing the Power of R in Oracle Database, and Real World SQL and PL/SQL: Advice from the Experts, with McGraw-Hill. Brendan is a regular blogger on Machine Learning, Data Science, Data Management and Ethics. You can also find him on Twitter at @brendantierney

Damian Gordon is a lecturer in Computer Science at the Technological University of Dublin for over twenty years. As a researcher he has authored over 50 research papers, 40 of which are focused on my work as an educational researcher (looking at accessibility, universal design, ethics and eLearning). He is also the co-editor of a book on developing an industrially-orientated

approach to computer science education in China. He has been Educational Advisor on a number of large international research projects, and has worked with a wide range of disability organisations (including the Central Remedial Clinic, Arthritis Ireland, Arthritis Research UK, National Council for the Blind of Ireland, the Ageing Well Network, the Irish Wheelchair Association, St. John of Gods, Pieta House, and Enable Ireland). He led the design and development of a fully accessible third-level module on Universal Design that is nationally available. He sits on the board of the Irish National Disability Authority where he advises the Irish government on education and ethics in technology.

Workshop 3: How can Digital Game-Based Learning co-creation (DGBLcc) enhance the Responsible Online Identity (ROI)

Ilias Batzogiannis was born and raised in Katerini, Greece. He had his degree in Physics (University of Crete, Physics Department) and it was then that he realized that teaching was something that fascinated him. In order to learn more about it, he had a master in "New technologies and research in didactic of Physics" (University of Ioannina, Physics Department). He returned in Katerini and started teaching in "Platon School of Katerini" (private school). Some years later, he started a Phd in 2014 (Aristotele University of Thessaloniki) in finding new tools for teaching STEAM. Since then, he had been using Lego Mindstorms EV3 and Kodu Game Lab in order to see if student's attitude towards STEM change by using these two tools. He have been also working on co creating an "escape room", with 15 years' old children, by using STEM riddles and participated in many Erasmus+ projects.
