1. Introduction

Digit Edu 2023 (Promoting cooperation and research to address the digital needs in the area of education and training in Europe–Year 1) is a project funded by the European Union under the Erasmus+ programme, Civil Society Cooperation in the fields of Youth, Education and Training.

The **European Digital Learning Network ETS (DLEARN)** participates in this project, which runs from January 2023 and December 2023, **as a single partner**.

DLEARN is a non-profit association aimed to embrace the challenges brought by the digital revolution in terms of digital skills mismatch, toward an inclusive digital society. DLEARN pursues the aim of contributing to the objectives defined in the "Digital Agenda" through the implementation of what is necessary for the creation of the so-called "Digital Skills in the economy and European society" pillar. In addition, DLEARN's activities are designed and implemented to be in line and to concretely and positively contributing to the Digital Education Plan 2021-2027 to generate new opportunities for the education and training organisations, policy makers, researchers at national, EU and international level.

In Digit Edu 2023 project, **DLEARN is committed to the following objectives:**

1. To raise awareness and contribute to the realisation of the European Education Area and the Digital Education Plan.
2. To contribute to the development of policies at European level on the topic of digital skills and digital transformation.
3. To promote cooperation between EU organisations for the promotion of digital education and digital needs.
4. To promote the participation of organisations in the Erasmus+ programme, the European Solidarity Corps and other EU programmes.
5. To facilitate exchange of good practices, results and experiences among stakeholders for an inclusive digital society.
6. To increase stakeholder commitment and cooperation with public authorities for the implementation of policies and reforms in line with the European Education Area objectives.

The **Digit Edu 2023 Work Plan** includes in total **6 Work Packages (WPs)**, listed as follows.

Two are horizontal:

- **WP1 - Project Management and Coordination**, which will ensure smooth application of activities.

- **WP6 - Dissemination, Sustainability and Impact**, which will ensure DLEARN's outreach.

The other four WPs are for implementation:

- **WP2 - Organisation of Conferences**, which will organise 1 annual DLEARN conference in Brussels and 2 satellite conferences hosted by DLEARN members.
- **WP3 - Networking**, which will organise 2 networking events and participation of DLEARN in EU wide networks.
- **WP4 - Research**, which will launch 2 researches, one on "Digital Skills and Jobs", and one on "Digital Footprint".
- **WP5 - Training**, which will organise three training courses and four webinars.

This document represents the **Deliverable 5.2 - Report from the webinars**, which contains the four webinars proceeding and the participants' inputs on the thematic areas of the webinars.

2. Preparation of the event

During summer 2023 four (4) Webinars took place open and free of charge on the following topics:

- “Digitalisation of Work Based Learning”
- “Digital education for adults and seniors”
- “Digital games for language learning”
- “STEM in secondary education”

The webinars have been organised by Dlearn in close cooperation with some of its members. The preparatory steps ensured a smooth execution of the webinars and the success of those activities of the WP5. The first step was to communicate to the 31 members of the Network the titles, topics and sub-topics of the four webinars as detailed in the DIGITEDU 2023 Application. Redbooth, as internal communication channel, was used for such scope: this decision originated from the need of guaranteeing accessibility of information to all the members. The second step witnessed Dlearn staff selecting and allocating the collaboration on the webinars to candidate members: members with a peculiar expertise on a specific webinar topic were enthusiastically ready to cooperate for the sake of its success. Finally, for each webinar a tailored Eventbrite page was opened. Each registration page was embellished with a banner replicating the visual identity and logos of the project and the punctual agenda of the day. To promote the registration of participants the link to registration page was – for each webinar- disseminated via the plethora of social media channels of our organisation and internally through emailing and Redbooth common space. Further organisation took place in engaging speakers/presenters with a series of contacts and emailing to make sure the link to webinars was perfectly functioning and presentations were aligned in terms of topics and themes to the webinars’ ones as foreseen by the project rationale. In the meantime an evaluation questionnaire was prepared for each scheduled webinar to gather feedback from participants.

3. Detailed description of the event

The “**Digitalisation of Work Based Learning**” webinar took place online on the 20th July 2023 organised by Dlearn in cooperation with Budakov Films LTD. The thematic areas explored by this first webinar were the digitalisation of VET education, the overall Digital transformation and how it impacts on digital apprenticeships and some tools on how enhancing Digitalisation in the workforce. The agenda was structured as follows: a 2 hours long webinar with opening by Prof. Dr. Petyo Budakov from Budakov Films LTD and XU Exponential University of Applied Sciences, an intervention from Mr. Coppola, president of Dlearn, on the project DIGITEDU 2023 followed by some reflections on how to navigate the digital frontier. The webinar continued with the speech by Prof. Dr. Filipe De Castro Soeiro from XU Exponential University of Applied Sciences on the Digital Transformation and the one by Arne Unkrig, the Co-founder of Arvana GmbH on Digital Apprenticeships to be finally be closed by the intervention dealing with Online Tools for Work-Based Learning by Mr. Yordan Karapenchev, Ph.D. The proceeding of the day hence included some frontal presentations and speeches by experts followed by a session of Questions and answers from the audience to guarantee and trigger discussion and brainstorming. A total of 49 people followed the first out of total four webinars organized in the framework of DIGIT EDU 2023 project out of whom 10 replied to the evaluation questionnaire (questionnaire – available here <https://forms.gle/Cegp5axT8qyN7qvo6>) which was sent via emails to all attendees.

The second webinar, “**Digital education for adults and seniors**”, ran on the 25th July 2023 online co-organised by Dlearn and two of its members: IDEC SA and Emphasys Centre. The webinar thematic area was Empowering seniors through digital education and how to do so through different tools: for this goal a series of best practices were presented by the speakers. The speakers were Gianluca Coppola from DLEARN who gave some insights on DIGITEDU 2023 activities and mission; Nicholas Moudouros from Empahsys centre who explained the empowerment of senior citizens through digital skills; Ersi Naioti from IDEC with her presentation on daily good habits of digitalised seniors, from IDEC also the topic of “silver age” entrepreneurship was touched by speaker Katerina Maniadaki followed by two further good practices illustrated by Emphasys Centre on the upgrade of seniors’ digital and literacy skills with the involvement of young people and civic engagement thanks to digitalisation. As in the previous webinar also during this one a time slot was allocated to questions and answers to let the audience react to speakers’ presentation and investigate further the treated themes. A total of 84 people followed the second out of total four webinars organized in the framework of DIGIT EDU 2023 project out of whom 16 replied to the circulated online evaluation questionnaire (questionnaire – available here: <https://forms.gle/rURMW38H986q1XTN7>).

“**Digital games for language learning**” was the title of the third webinar in the framework of WP5. This webinar took virtually place the 14th September 2023 co-organised with the Institute of the

Deaf of Turin (IST), another member of our Network. The themes of this online appointment were Language Learning and Digitalisation applied to it. The agenda of the day was structured similarly to the ones of the webinars organised in July, with some opening words by the speakers – Florian Gallo from IST and his explanation of theories and approaches to language learning followed by Silvia Doratiotto, a teacher of languages illustrating good practices in language learning using digital tools and the final session led by Giorgia Suriano from the University of Turin who engaged the audience in a presentation and demonstration of digital language learning tools (web and applications). An open discussion for all the attendees followed and after it the webinar was concluded with some final remarks. This webinar was attended by a total of 100 people out of whom 12 replied to the evaluation questionnaire which was circulated via email (questionnaire – available here: <https://forms.gle/DjtRLLdKT5uD64mS8>).

The last webinars of the four was organized online on 15th September 2023 in collaboration with LINK Group, another member of Dlearn. The main theme for this webinar was – as in its title- “**STEM in secondary education**”. The structure and agenda of the webinar during which different teachers and professors from LINK Group took the floor followed the usual: a first session for the introduction and Welcome Speech by the organizers, a presentation of useful STEM Applications for Teachers and one dedicated to STEM Applications for Students. The webinar continued with a session on the Benefits for Applying STEM in the Classroom and was concluded by open discussion and exchange of ideas among presenters and attendees and some conclusion words. A total of 66 people followed the fourth and final webinar organized in the framework of DIGIT EDU 2023 project out of whom 50 replied to the emailed evaluation questionnaire (questionnaire – available here: <https://forms.gle/9g9qBCVhJuXb4Cbr8>).

4. Follow-up

Each webinar has been evaluated in order to monitor the satisfaction of participants and to assess the quality of the webinar organised. The structure of the evaluation questionnaire handed out after each of the 4 webinars was built as follows: a first part meant to gather general data about the respondents such as their profession and organization and their overall satisfaction with the webinar; a second part dedicated to investigate the effectiveness and quality of speakers as well as the clarity of topics and themes treated along the webinar; a third part of the questionnaire focusing on each of the single panel sessions in the view of acquiring a more in depth insights about the usefulness; appropriateness and ability to meet the needs of targeted participants of the latter. The fourth section of the questionnaire, moreover, asked attendees about their post-webinar intentions with the aim of understanding the sustainability and exploitability of the lesson learnt and eventual tools/ best practices/ references to further products showed during the webinar: each questionnaire also foresaw a part open to comments and remarks from participants and a final question about the overall score on a scale from 1 to 5 given to the webinar.

Below are reported the answers obtained per each question of the form for each one of the four webinars and their analysis completed with visual graphs where available. Moreover, a short but comprehensive conclusion summarises the analysis of the results obtained from the findings of the evaluation reports.

What we offer to teachers

1. We offer adapted and diversified readings for learners

17 ebooks will be produced in the framework of the project, adapted from literary classics and illustrated with works from Europe's cultural heritage. We want these ebooks to be as accessible as possible to people with little or no access to the written word (migrants and adults with little schooling, qualified, people with disabilities or learning disabilities, etc.).

We have therefore devised a progressive three-stage path to discover a work: from the image associated with the audio to the reading of a text at A1+ level. In addition, the audio versions of the ebooks will be offered independently for visually impaired people. A selection of ebooks will also be adapted in sign language.

[Go to Library »](#) [Go to Sign Language Videos »](#)

2. Pedagogical supports and resources

To help you, each ebook will come with its pedagogical file. Practices sheets on technicalities (how to find an image to illustrate an ebook, how to edit it, ...) and on editorial and educational points (create a storyboard, animation of a practical workshop).

There is currently a lot of net activity around this concept (also called social impact games), including a recent summit, an active Wiki and blog, and an ambitious project partnering Microsoft and the Massachusetts Institute of Technology. The central idea behind serious gaming is the promotion and creation of videogames for use in education and corporate or military training.
